

**Journal of Structural and Construction
Engineering
(JSCE)**

Volume 5, Issue 1, June 2018

Serial No. 15
ISSN (Print): 2476-3977
ISSN (Online): 2538-2616

Publisher

Iranian Society of Structural Engineering (ISSE)

Responsible Director

Dr. GholamReza Havaei

Chief Editor

Prof. Hamzeh Shakib

Editorial Board (in alphabetical order)

Dr. Mehdi Azhdary Moghadam, University of Sistan & Baluchestan

Dr. Morteza Eskandari Ghadi, University of Tehran

Prof. Abolfazl Eslami, Amirkabir University of Technology

Dr. GholamReza Havaei, Amirkabir University of Technology

Prof. Mohammad Zaman Kabir, Amirkabir University of Technology

Dr. Abolghassem Keramati, Amirkabir University of Technology

Prof. Mohammad Taghi Kazemi, Sharif University of Technology

Prof. Ali Akbar Ramezani, Amirkabir University of Technology

Prof. Mohammad Hassan Sebt, Amirkabir University of Technology

Prof. Hamzeh Shakib, Tarbiat Modares University

Prof. Javad Vaseghi Amiri, Babol Noshirvani University of Technology

Prof. Mahmoud Yahyaei, Khajeh Nasir Toosi University of Technology

Interior Manager

Dr. Ashkan Shahbazian

Executive Director and Public Relations

Eng. Massomeh Sadat Makki Abadi

Aims and Scope

Journal of Structural and Construction Engineering provides a forum for a broad blend of scientific and technical papers to reflect the evolving needs of the structural engineering and construction communities. Journal of Structural and Construction Engineering also publishes review articles, technical notes, and a diary on national and international events related to any aspect of structural and construction engineering. We invite you to contribute to the success of this journal by submitting your articles.

Articles

2 / Message from responsible director (in Persian)

5-19 / The effect of magnetic water and different pozzolanic materials on the fresh and hardened properties of self-compacted concrete

Majid Gholhaki, Ali Kheyroddin, Mohammad Hajforoush

20-35 / Predicting the torsional strength of reinforced concrete beams strengthened with FRP sheets in terms of artificial neural networks

H. Naderpour, P. Fakharian

36-54 / Probabilistic evaluation of seismic vulnerability of multi-span bridges in northern of Iran

A. Mirza Goltabar, A. Naseri, Y. Mahmoodi Pati

55-70 / Assessment behavior of the concrete flexural frame and shear wall partially buried system under blast loading

P. Hassanvand, M. Hosseini, A. S. Moghadam, M. H. Rasoul Abadi

71-87 / Assessment of spectrum modification factor for design of steel moment frames in near fault regions

Reza Vahdani, Mohsen Gerami, Morteza Razi

88-108 / Numerical modelling of the explosion effect on buried transporting water, oil and gas pipelines in different soils by ALE Method

Mohsen Parviz, Babak Aminnejad, Alireza Fiouz, Mohammad Hadi Alizadeh Elizei

109-126 / Investigating the effect of type of aggregate on strength and permeability of concrete

Mahmood Naderi, Rezvan Valibeigi, Seyed Mohammad Mirsafi

127-142 / Probabilistic seismic hazard analysis and determination of uniform hazard spectrum of Bushehr province assuming linear source model

Amin Keshavarz, Batool Mansoori Moghaddam

143-156 / Investigating effect of boundary conditions on columns' buckling

S. M. R. Hasani, M. Mahmoudabadi, R. Danaei

157-173 / Hybrid simulation by combining system dynamics and agent-based modeling approaches in construction projects

Mostafa Khanzadi, Farnad Nasirzadeh, Mostafa Mir

174-188 / The assessment and comparison of tall buildings with outrigger and belt truss systems using fragility curves

Hamed Hamidi, Jafar Packdaman, Ehsan Jahani, Hamid Rajabnejad

189-209 / Dynamic analysis of concrete rectangular tanks considering the effect of soil-structure-fluid interaction

Mehrdad Khoubani, Shamsedin Hashemi, Ali Alipour

210-227 / Technical note: Response modification factor of eccentrically braced frames with reduced beam section

Reza Asghari Sahroun, Nader Hoveidaei

228 / Message from responsible director in English
